Summary of Outreach Missions

The Wellness Center has conducted *150 Medical Outreach Missions in 65 remote towns and villages, providing free-of-charge services to almost 10,000 patients*, by the radiologists and the gynecologists of the Center. These *Missions* have been organized in cooperation with the local *polyclinics, schools, factories and/or municipalities*.

Summary of Breast Imaging

ONE in every THIRTEEN women screened at the Wellness Center is diagnosed with Breast Cancer.

More and more women (age 40 and over) are now coming for their **ANNUAL Mammograms**, and thus **Breast Cancer** is diagnosed at earlier stages with more possibilities for a cure.
